

WEXFORD COUNTY TOURISM PROFILE

Prepared by Daniel M. Spencer, Dae-Kwan Kim, and Philip J. Alexander

October 1998

MSU Extension has prepared this profile to help developers, tourism professionals, public officials, and others make informed decisions regarding the travel and tourism industry in Wexford County. All statistics pertain to Wexford County unless otherwise noted, and are the most current available. Further assistance is available from the Travel, Tourism, and Recreation Resource Center at Michigan State University (517/353-0793) or the MSU Extension office in Wexford County (616/779-9480).

TRENDS IN STATE OF MICHIGAN LODGING USE TAX COLLECTIONS FOR WEXFORD COUNTY

NOTE: The lodging use tax is a state tax on the rental of a guest-room or cabin. To ensure comparability of statistics over the entire 10-year period shown, tax collections after May 1, 1994, when the tax rate increased from 4% to 6%, were adjusted so that they equaled what they would have been at the 4% rate. The comparable statewide average annual change figures are 6.3% in the case of raw data and 0.4% in the case of adjusted data.

ESTIMATED MARKET SHARE, TRIP VOLUME, AND EXPENDITURES BY TOURISTS IN WEXFORD AND NEIGHBORING COUNTIES, 1996

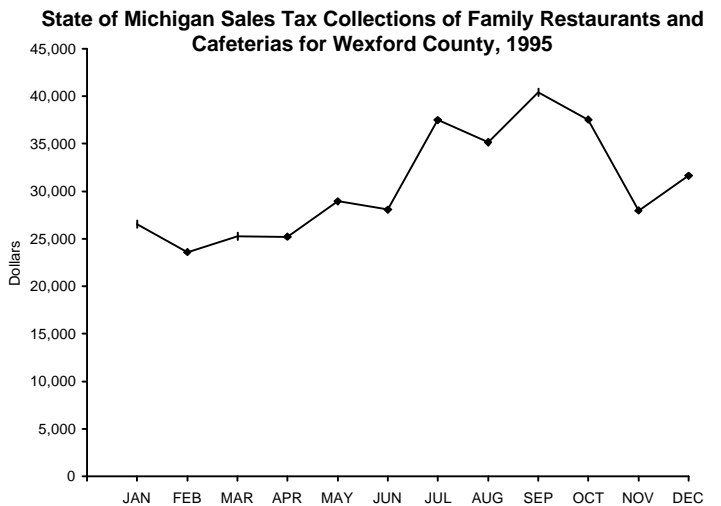

<u>COUNTY OF MAIN DESTINATION</u>	<u>ESTIMATED MARKET SHARE</u>	<u>ESTIMATED NO. PLEASURE TRIP-NIGHTS</u>	<u>ESTIMATED DIRECT EXPENDITURES</u>
Grand Traverse	6.1%	5,714,100	\$310,435,000
Lake	0.2%	206,700	\$11,231,000
Manistee	1.5%	1,378,300	\$74,879,000
Missaukee	0.2%	223,000	\$12,113,000
Osceola	0.1%	107,200	\$5,823,000
Wexford	0.7%	648,000	\$35,203,000

NOTE: Estimates are based on results from a telephone survey being conducted by the Travel, Tourism, and Recreation Resource Center at Michigan State University. "Pleasure trips" are overnight or day trips to places at least 50 miles from respondents' homes that were made for enjoyment, including vacations, weekend getaways, shopping trips, and trips to visit friends and relatives. The study region consists of Illinois, Indiana, Michigan, Minnesota, Ohio, Wisconsin, and Ontario. "Market share" is the percentage of pleasure trips to Michigan that originated from this region and had a given county as its main destination. Estimated pleasure trip-nights are the product of these percentages and a survey-based estimate of 93.8 million pleasure trip-nights in Michigan in 1996. Direct expenditures are the product of these percentages and a survey-based estimate of \$5.1 billion in direct pleasure trip expenditures in Michigan in 1996. Estimates do not include pleasure trip-nights or expenditures of travelers who resided outside the study region or who merely passed through a county. Estimates are preliminary and subject to revision as additional data become available. They should be used judiciously since they are in some cases based on small samples for a given county.

NOTE: This table is intended to provide an indication of the county's competitive advantages and disadvantages. Many types of tourism facilities are patronized by local residents as well as tourists. The number of such facilities in a given county is therefore a function of the county's population as well as its popularity as a tourist destination. To provide a meaningful indication of popularity in such cases, counts of facilities are presented as number of facilities per 1,000 residents. "Natural heritage sites" are scenic vistas, unique geological features, significant wildlife observation areas, or major waterfalls. Range of ranks statewide is not always 1-83 due to ties.
